Van Halen is a classic band. You cannot claim to like rock music and not like at least one Van Halen song.

I do. I mostly like the Van Halen stuff from when they were with David Lee Roth, but I like some of the songs they did with Sammy Hagar as lead too. One of my favorite music videos is "Dreams" by Van Halen, but actually not so much for the music but because the entire video is the Blue Angels performing. The music goes great with the video though

They treat thier leads really poorly. All three of them canned without warning.

And Gary Sharonne in exchange for Sammy? C'mon guys. :rolleyes:

David Lee Roth is a rock visionary, and they never should have canned him, or treated him like garbage after the greatest hits album. The last three tracks on the greatest hits album were new creations by Dave 15 years after they canned him, and they awesome.
