A very left wing forum.

I have been having a field day with them since I signed up.

Every post I make is greeted with an insult. And they are the masters and bad name parodies.

Plus they never provide sources to their information.

Right now they are telling me opinions can be proven wrong and then they are calling me a Nazi while doing that.

You're somehow happy that you found a website forum with a bunch of morons? Both sides, right wing and left, have a big load of idiots.

EDIT: Could you please provide a more direct link to one or two of your conversations with these people?

Search for Nodbugger.

Just in the normal search. Not the name search.
