I formatted my hdd and installed ren and rg when i did this i began to skip every 7 steps in any game. single player or multi player so i un installed evrything tried to reinstall and wol crashed my sys. so i formated and now things are fine without rg. I need to install rg for the tourny but i can snipe with it skipping like that.

Any help would be great.
Im useing DSL.
My modem is a westell 2200.

thanks
