Get a hex editor and make these changes:

Redhat 7-3

File: renegade_server_1037b_RH7-3

MD5: f89b8059a915b48edc42037fbd2753a7

Offset Original Patch

000577E0 FF 04
000577E1 75 7D
003254FF FF 04
00325500 75 7D
00327AEB 00 03
00343BE4 FF 04
00343BE5 75 7D
005AD388 FF 04
005AD389 74 7C
005B0E80 FF 04
005B0E81 74 7C

Redhat 8

File: renegade_server_1037b_RH8-0

MD5: 2ff51e949eeb0ee6ff8a3d72329efe52

Offset Original Patch

00053656 FF 04
00053658 84 8C
002D86BB FF 04
002D86BC 75 7D
002DAD94 00 03
002F6CD1 FF 04
002F6CD3 84 8C
00494F7B FF 04
00494F7C 74 7C
00498886 FF 04
00498887 74 7C

I didn't include the exes beacuse a lof of them have changes made to them, this is based off a fresh copy of the linux executable.
