C&C\_Dusk Renegade Multiplayer Level

By SomeRhino, released 6/25/04

Description:

In C&C\_Dusk, each team can access the opposing base via either the destroyed underground facility or by traversing the web of trails that weave through the mountains. There are lots of rocks and trees for ground cover, and several powerups that can be collected along the way.

There are no known bugs, but there are likely some unfixed vis errors hiding about in the level.

Thanks:
