I printed out the instructions, and now I have made that my summer project, along with upgrading my computer. I'm gonna stick with the squirt gun for a couple months, and then I may add the flamage.

I want to build the squirt gun version first too. Mostly because I am not fire's best friend.

I already have the instructions saved on my computer. I'm going to build that over the summer with my friend Logan.

It's going to be funny to hit somebody 20 feet away with water.
