Need more information. What program are you using? Have you already created the ladders and
just need to add controllers? If you are using Renx and have already made the physical ladder,
then export from the file->export option, and open it up in Level Edit. Read tutorials for more help.

to make screenshots press the printscreen button on you keyboard and go to you fave pic editor
such as paint or photoshop and paste it in and save it.then upload to a website to add to a post.
