Too busy to read an important report because you've got a party to go to?
Not only that, you've got the governer of New Mexico trying to save your ass by miscontruing what you actually said.

Well, I have news for you. You've got plenty of Edwards up your anal cavity already. No New Mexico governer can justify you blowing that bombshell.

The real question becomes this: when you have two horrible choices to pick from, which do you take?

If you are trying to win converts to the Democratic party, this isn't the most unbiased source you

could have used. Let the polarization begin!

He's not funny, he's an idiot. Almost everything he writes has little to do with reality, it's his own warped perception of what he thinks is going on.

I'm talking about Kerry's pathetic EXCUSE for not reading the report. I hope for your President's sake that he thinks about what he's going to say before he says it.

Well, political cartoons are only funny if you agree with them. Thus, small wonder you think he's not funny. Of course it doesn't have much to do with reality, except when he says it does, like the Abu Gharib cartoon. I mean, his main character is a talking penguin with a space visor.

I mean, do I even need to comment on this?

"Hey Kettle, it's for you ... it's the Pot. Yeah, yeah ... He says you're black."

That happens a lot around here whenever he posts.

Then he likes to tell you that you're being hypocritical. It's sheer comedy.
