if you are moderator in the irc channel (+O) before the bot join it wont accept you.

First make the bot join the channel, then you join and get +O

Try that....

check this help file I did.

http://hem.bredband.net/ohrmat/Brenbot-setup.pdf

Its for Linux FDS but you should understand it if you use the windows also.
Read it and see if its anything you missed.

that didnt work but i think i found the problem...
i was using the server.ini in westwood\renegadefds\server.ini instead of
westwood\renegadefds\server\server.ini. Ill get back on it bu i think i figured it out.
