while we are on the topic of textures....

skinning tutorial

This is really for people that haven't been modifying Renegade much/at all, so expect it to be very basic.

And Ack, if you do end up looking at this, I'll save you the time:

- It's not "skin", it's "texture".

- I should go through the effort of actually making new models and not just changing existing skins.

AlostSOull like the camo personally, it really hides you in the desert :rolleyes: .  
Moron...skins/textures are seen client side, meaning that if you have the skin, only you can see it (unless, of course, someone else that's playing has the same skin/texture). So saying that it's a bad camo is just stupid. It's not made to be camo, it's made to be what it is, a skin/texture...an alteration to the look of the "paint job" of the vehicle.

The truth is pot isn't nearly as damaging to your body as cigarettes, hard liquor, and many prescription medicines. That doesn't make it healthy though. It has fairly strong affects on short term memory and if used a lot, it frankly just makes you stupid. The only time it's ever really beneficial to your body is if you have an illness or medical condition such as glaucoma.

Does this answer your question?:

icedog90Don't tell me what I will and won't do. It is my decision not to smoke, drink, or use drugs. This is the internet, don't be an idiot.

---

Yes, you are uptight. Zunnie wasn't really saying that you are going to. Just most teenagers usually say that they won't ever do this or that, and then end up doing it. Shit, I used to try to get my family to quit smoking, but last year I started to occasionally smoke cigars.

---

Who is this "ack" you speak of, I see no one here named "ack" at all.

Marijuana, regardless of being compared to other forms of drugs or intoxication, is still something wrong and should not be used in any form unless it's prescribed to a patient in need of its effects.

Mind-altering substances are never good. If something else is worse, like alcohol, it does not justify what you're using.

I certainly don't think that smoking pot is morally wrong. I think it's stupid, especially with the people who over do it, but I don't see anything "wrong" about it. Honestly, it doesn't really concern anyone else if someone wants to fry his own brain cells.

As far as it being illegal, I think it's a bit of a double standard with the government. To allow something like pot but not cigarretes or alchohol is just stupid, especially considering pot can't possibly kill you, it just diminish's your mental capacity.

I guess we should go out and kill things, since we may as well experience as much as we can.

Sure, that's dramatizing it, but it's still the mentality you're going to breed. Morality has been the cornerstone of civilization, when you start breaking down fundamental barriers to insane actions, it becomes "normal" to do what was once detrimental to an organized society.[/quote]

The huge difference between this is, that Weed doesn't really put people in jail, unless you are a dealer, or grower. If you consider killing people the same as doing drugs which harm your health, not your reputation, then you got to rethink that again.

Marijuana just relaxes you, and you dont start seeing things like some of you may think, its just a big body buzz, and you actually have very high concentration when your on it.

I personally smoke it, because i find its something to consume time , and its pretty damn cheap, infact its about twice as cheap as cigarettes around here, depending on who you buy from.

Around here the laws even got decreased so much because police were busting so many people with small amounts, and they had to goto court to settle it, that they were actually loosing money..

They ended up changing the law to a massive increase of 28 grams or more will give you a 200\$ ticket.

If you think its bad, please tell me who exactly it is....

Here is some facts to help prove that, this Natural plant really isent as bad as you may think.

-----  
Marijuana is one of the safest therapeutically active substances known. No one has ever died from an overdose, and it has a wide variety of therapeutic applications:

Relief from nausea and increase of appetite;  
Reduction of intarlobular ("within the eye") pressure;  
Reduction of muscle spasms  
Relief from chronic pain.

Marijuana is frequently beneficial in the treatment of the following conditions:

AIDS,Glaucoma,Cancer,Multiple Sclerosis,Epilepsy,Chronic Pain.

Prior to 1937, at least 27 medicines containing marijuana were legally available in the United States.

---Many who used marijuana recreationally also suffered from diseases for which marijuana is beneficial. By fluke, they discovered its therapeutic usefulness.

And a ratio on how bad it is compared to other things.

There is no existing evidence of anyone dying of a marijuana overdose. Tests performed on mice have shown that the ratio of cannabinoids (the chemicals in marijuana that make you high) necessary for overdose to the amount necessary for intoxication is 40,000:1.

For comparison's sake, that ratio for alcohol is generally between 4:1 and 10:1. Alcohol overdoses claim approximately 5,000 casualties yearly, but marijuana overdoses kill no one as far as any official reports.

=====

The data from previous studies, published in numerous books and scholarly journals, covered such matters as marijuana's effects on the brain, lungs, immune and reproductive systems; its impact on personality, developmental and motivational states; and its addictive potential.

Although these studies did not answer all remaining questions about marijuana toxicity, they generally supported the idea that marijuana was a relatively safe drug -- not totally free from potential harm, but unlikely to create serious harm for most individual users or society.

Ok that sums it up, read what you want, otherwise skip all you want, i find it has many benifits, as well as many things that do damage, but not nearly as bad as alcohol , which i have not drank a sip for a full year now.

JavaxcxAircraftkillerMorality has been the cornerstone of civilization, when you start breaking down fundamental barriers to insane actions, it becomes "normal" to do what was once detrimental to an organized society.

Couldn't agree more.

I personally don't drink, smoke or do drugs. I get "high" and "intoxicated" on life and what it offers without my mentality being fucked up.

---

I like that last part. It's a shame probation was cancelled. but you don't need a law for that do you? So I don't see why ppl have issues that we got softdrugs legal. I don't smoke at all but i don't see the issue why it should be illegal.

Any type of drugs are not good for you and can kill you if you're addicted enough, and that's why a lot of people think they should be illegal. They don't want everyone doing it and shortening their life span. Don't forget that pregnant women who use drugs could mess up their child.

If we banned guns here the bad people that disobey the laws would still get them. Also we have a right to own a gun to defend ourselves. Also, I like going shooting at the shooting range it is a good way to relieve stress on a paper target. The AR15 is my favorite gun that we own and that is the gun that will be putting bullets in your ass if you try to hurt my family or try to take my gun.

Oh and the reason why I don't smoke and will never smoke is because I think people that smoke look stupid. They think they are so cool but they look like assholes. J\_ball430 who I have known for a long time is kind of a hypocrit because He always said he would never smoke and now he does. I don't understand all of the commercials and ads that tell you the horrible things in cigarettes yet kids still start smoking. I just don't understand, all the things you learn in school yet you still smoke.

Drinking doesn't bother me as long as it is done in moderation. My cousin was just in a car accident because he was drunk. His friend that was in the car with him when they hit the tree was badly injured, and he was just pulling out of a used car lot where he works after a company party. If that doesn't tell you to never drink and drive I don't know what does.

Holy shit I just did another one of my long essays.

They don't want everyone doing it and shortening their life span. Don't forget that pregnant women who use drugs could mess up their child. With drugs you would kill yourself. That's ppl there own problem. With guns you kill (mostly ) other ppl.

And alcohol is a hard drugs so why is that legal?

Softdrugs can't kill you it can even help ppl...

I don't see anything wrong with drinking, as long as you drink carefully and safely. Drinking when you drive is a stupid thing and I still don't understand why teenagers often do it. Becoming an alcoholic is really not a good thing.

Think of it like adding another alcohol related intoxicant to your roadways.

zunnieDemolition manDarkDeminDemolition manAircraftkillerYeah, lets promote illegal drug usage that fucks up your body...better have soft drugs legal then weapons. And america also sells hard drugs so why care about soft drugs?

I will keep all my guns and if the UN or anyother country tries to take them, they will have to pry them from my cold dead hands.u a pussy that u need a gun?

I wish guns were legal here also.

At night i sometimes get out of the train here closeby, and somefigures there you dont want to have them against you unarmed.

Theres pretty much criminal activities over here. 2 months ago two were killed closeby :s

Your not a pussy if u need a gun to defend yourself, what the hell are you supposed to do when someone threatens you with a gun or or knife? Let them take your life? Instead of shooting them? I rather put a bullet in their body then let them put one in mine.

[zunnie]

I don't know where you live. but I live in holland. and guns are illigal here too. But if guns were lical here, it would only be worse. Then there would be way more crime around here..
