Ok I know my last few post havn't been Very helpful to you. But please bare with me. If you want to make your own music goHere. Its as easy a lego's (my 9 yeat old sister can do it, she has no musical ear )and if you know another way please don't tell me I have my own way's  
WARNINGmy lastest version of Acid (3.0) only lets me burn cd's or save it as a Acid file. when I want to save it was a sound file i have to burn it then rip it from the cd Maby it's just my copy, from what I see the demo should let you save it as a sound file.[ May 09, 2002: Message edited by: vertech289 ]
