Sir Phoenixx47% of all statistics are made up, just like everything in this thread.

Heh, from my sig.

Anyway, yeah there's absolutely no way of knowing whether any of that's true...

Thats why I always sleep with my blanket above my nose when I can... No spiders can crawl in, and if not I make sure to never sleep with me mouth open. I'm wondering who spent an entire year dissecting their food looking for pubic hairs. Let alone how was it discerned that the hairs were of the pubic genre?
