We've redone our site and forums, they look a lot better than before now.

[www.thedarkangels.net](http://www.thedarkangels.net)

If you don't know who we are, you'll find an explanation there. Angelsrv1-3 on WOL are also ours.

Drop in, register, and say HI.

its okay, but you need to get rid of all the essenses of the standard skin that came with it.  
For example, people might want to see the DA logo, instead of:

Andy.

P.S. Hey RenX!
