Got a question, would love answer- How would you extract the Pt terminal grafx itself? Not the icons in the menu, just the Pt itself. Where would it be found? Does this have anything to do with scripting? Thanks in advance.

you mean the settings for it? the level editor has it. Look in the global setting folder. there should be "team purchase settings" Dont know how to edit but take a look.

sounds like my problem too, I think he's looking for the model of the purchase terminal. I just added the buildings with ramps to my map, went inside to set up the pts and whoa... they weren't there. The player control terminals in "tiles" don't seem to show up in the editor either. man. Wish I could help you dude. like bump.
