I'm sure probably lots of poeple here knows how to place a fikkin tons of C4 rapidly on your PT. Well, i got BANNED from a server where i am moderator for hacking.... because i did that. Omg its a hack, HaXxX0r, no way, everyone can do it.

Chat log :

<Zonekill9> WTF  
<Zonekill9> ARE YOU DOING  
<jessie182> you have a hack  
<Zonekill9> Its not a hack  
<Zonekill9> Duh  
<Zonekill9> Everybody can do that  
<jessie182> no they can't  
<Zonekill9> Yeah  
<jessie182> no  
<Zonekill9> You just need practice  
<Zonekill9> You press E and 5 rapidly  
<jessie182> you cannot throw out 20 mines at a time  
<Zonekill9> qhile pressing the fire button  
<Zonekill9> OMG  
<Zonekill9> Its -->NOT<-- cheating  
<jessie182> yes it  
<jessie182> is  
<jessie182> i'm letting brian know  
<Zonekill9> No its not  
<Zonekill9> Anybody can do that  
<Zonekill9> Aircraftkiller, Ryan3k, Ohnou, everyone  
<Zonekill9> You want me to video it ?  
<jessie182> how about you leave me alone  
<Zonekill9> Darn  
<Zonekill9> You kicked me for a stupid, funny glitch  
<Zonekill9> oO

Dunno what you think, but im no longer playing on that damn server again, if most of the moderators dont know the difference between practice, and hacks.

Here we go again.

<Zonekill9> What do you think ? That's NOT cheating

<Zonekill9> Anybody can do that  
<Zonekill9> All you need is time, skill and practice  
<knight1b> theres like 30 c4 on that thing  
<Zonekill9> So?  
<Zonekill9> You can do it  
<Zonekill9> I can teach you to do it  
<Zonekill9> Now im treated as an HaXxX0r for knowing a little trick ?  
<knight1b> that little trick is not something your supposed to be able to do in the game  
<knight1b> its a flaw  
<knight1b> a bug  
<knight1b> a glitch  
<Zonekill9> So what  
<Zonekill9> Im not useing it all the time  
<knight1b> a exploit  
<Zonekill9> I did that once in yeara  
<Zonekill9> years  
<knight1b> shall i go on?  
<Zonekill9> If refills, or characters wasnt free, that wouldn be a problem  
<Zonekill9> You guys are banning for every little thing not right  
<Zonekill9> Instead of banning me for a stupid thing , why din't you just warn me to stop doing it ?  
<Zonekill9> Now ?? Why can't you reply ?  
<knight1b> cuase im talking to jess  
<knight1b> she baned you and i see no problems there youll have to take this up with ohno  
<Zonekill9> ...

I think you're being oblivious here. You were exploiting something in the game. By your logic, if you should be able to exploit that, then you should be able to exploit such things as jumping onto buildings that cannot normally be accessable on top. You should also be able to exploit the few and far between "unlimited ammo" places on the map. You should ALSO be able to exploit the PT accessability behind certain structures.

Also, its their server. They are able to do whatever they want with it.

How is that exploiting? The only way to do so, imo, would be if you could see a rush on the AGT or something coming and did in in there.

He is using the controls within the game's limitations and there was never a defined "rate" that you could toss explosives at. The whole reason for using keys combinations, such as E, 6, 7 was so that units could be bought quickly. If Westwood didn't want people refilling with a button press, they'd have prevented refills by just hitting 5. Besides, you provide better building defense with 10 timed c4s stashed throughout the interior than 100 at a single PT.

I think his "exploit" is as much an exploit as refilling in battle, and I also think the other 2 people in those chat logs lack discipline and don't know how to moderate a server.

First clue you're an idiot: Arguing about something by passing falsification as fact. she obviously didn't think it was possible to do, which makes the ban wrong.

Alls you do is face the bloody PT and Press E + 5. If it was a fucking bug, someone would fix it. It obviously ISN'T a Hack, Exploit, Piece of Food, Candy, whatever... Otherwise someone would fix it. Yes, I do it when I'm bored shitless in-game, usually at the start.

It isn't an exploit. End of story.

kthx.

knight1bretards ? ok one the pt thing is a bug i know wth it is aperently you dont second mods must be held to the highest level they do represent the server and exploiting a bug is not exactly upholding the rules in which those kind of exploits are forbidin.

Wow. You're impressive. Only registered a day, and already you join my shitlist next to such accomplished idiots such as sw33t, Neox, and nodbugger.

Obviously, the PT thing is a bug. We all know it's a bug. And in fact, I support them banning him, since server owners should and can ban people for whatever they want.

Now, that being said ... it is obviously not an exploit, since for something to be an exploit you need to be able to exploit it.

m-w.comex.ploit

1 : to make productive use of : UTILIZE <exploiting your talents>  
2 : to make use of meanly or unjustly for one's own advantage <exploiting migrant farm workers>

Now, this use was neither productive nor unjust. After all, as was said earlier, the only way that MAYBE this could be exploited would be to see a rush coming for the agt and mine to kill people who get in ... but then you wouldn't be able to be in there either, or you'd die from your own c4.

In addition, Each c4 you throw after the first one stacks on the previous one, so when the first c4 blows, the rest dissappear. Just fyi.

Anyway, in conclusion:  
You're an idiot.  
You can't spell, or use proper grammar.  
I hate you, and I don't even know you yet.

Next time you register in a forum, wait a while before instantly posting.

Please die. Thanks.

If you're at a store that offers free cookies and you eat handfuls of those cookies because the store has an unlimited free supply... how is that an exploit? It's also not cheating because anyone who can hit e-5-mouse click over and over can do it.

the only reason it could be considered a bug is because when you do it, the animation of the character setting the C4 up does not happen. Other than that, nothing is bugged about it, it's simply a rapid fire and refill.

Other than that, I'd fully support ejection form the server (ideally after a warning) simply because its so annoying, and you could be doing better things with your time.

First : I did that ONLY because it was the start of the game, and in hourglass, the start of the game is boring.

Second : Anybody can do it. You only need to show it to someone who does not know abotu that, you give the explications on how to do it, and he just got to practice until hes friggin fast.

Three : I'll tell brian about this topic. He din't send me any E-mail or anything yet, but he will one day.

Quote:if the rules for the server dont have a thing against it i realy dont care but seeing as how such things or agisnt the rules on the server enough said .

I assume the rules on the server say "no exploits". No exploits is a wishy washy rule when it comes to things like this. let's use this example in third person. you're moderating the server and

you see someone do something you don't like. you think to yourself "hmm, is he breaking a rule doing that?" you check the rules, and it says "no exploits". you kick him. the player complains, saying "I know the rules said no exploits, but what I did is widely considered not to be an exploit. ". see, sometimes you need to clarify your rules (if you're not ban happy, that is). it's also why a warning first for these kind of things is a lot better because then you know if the player is breaking rules of his own accord or he simply didn't know what he was doing was wrong.

There are a few people on CW who, after they get raped on renguard servers by TC or BR, they say "Renguard can be bypassed, and I know how!!!" So we say, prove it, and they go all quiet.

Old renguard was easy to bypass. Nobody knows how to bypass the new updates, or if they do they are VERY secretive about it.

usually for a good reason

and anyhows i class throwing loads of times on the PT as hampering yur team  
definitely if its during a game cause it goes towards the mine limit

its still fun to do it at start of a cw ^^ and die and run to the explosions to see how amny times u  
can die before the times stop  
but it shouldnt be done in normal games cause of mine limit problem  
so he wouldve deserved a kick, even if he could argue it was start of game

I have stopped many an early rush by throwing lots of timed C4 in the doorway of the Ref on maps like Canyon

You know ill give you this much ive never really payed attention to weather timed use up the limit or not .

Also yes we have had problems with people comeing in with w regular soldier and killing everyone

---

and everything with a single shot and getting a few thousand points. That being said i dont know if renguard was working properly at the time or not but then thats why you still have mods.

Actually, to prove you guys wrong, renguard can be broken though. I am not giving a clue, and have report this to mac ( He says i need prove, which i am getting) But its possible. Though, since most cheaters are stupid, they will never EVER think of how to do it.

Jason8765DaVysetimed c4 does not affect the proxy/remote limit  
all c4 does as far as i know

You know, you could easily create a 1 player game and throw thirty C4 explosives onto the ground, then toss a few timed and watch to see if your C4 disarms its-self. But to save you the trouble, no, they don't take from the remote/prox limit

spoonyrat!ve just become aware that Zonekill9 is in -ToW-....

well, that changes things a little, doesn't it? :rolleyes:

What do you mean ? I was never really in that clan. Why ? Because the leader is dumb. He can't even write correctly. He's just a moron pretending to be better than anyone because he's using final renegade....

How'd i knew it ? I build a mammy, suddently POOF! It blowed up. He killed me (JvxsTOW is the leader). I replied with a WTF ! and he said he'd put a C4 on me.... LOL WTF.

And i can't get out of it, since for a reason or another, the Clan page sends me to the <http://www.westwood.com> site, and it says an error blah blah blah.

IceSword7flaw932.....u dumb fucks have no life

OMG ITS SNIPBRAVO!

Oh dear...

Laugh? I nearly passed my cigarettes around.

So let me get this straight, you got banned for throwing 30 or so timed c4, utilising the keyboard shortcut? What's the tactical advantage there? Proxy c4 I can understand though.

I've had tanks suddenly go "pop" and I'm sat just outside the base waving my repair gun about. I then also got a barracking for not c4 ing a few people...

Btw, is there any way that people can watch games? I'm sure it could be done on ra2, though I never tried. I'd really like to see this, when it eventually happens

knight1bretards ? ok one the pt thing is a bug i know wth it is aperently you dont second mods must be held to the highest level they do represent the server and exploiting a bug is not exactly upholding the rules in which those kind of exploits are forbidin.

If you are a "moderator", than how do you lack basic english? I can barely understand you through your lack of punctuation.
