Heh, I'm being banned from EAX forums. Cyberprick can't handle my common sense and intelligence, so he's decided to ban me. I just thought it was funny and I was wondering if anybody will offer to make me some new names for the forum, so I can continue to promote RenGuard and the anti-cheating way of life.

if your banned by IP, even if you use another account youll still come up as banned

if its just a banned account then clear yur cookies so yur not logged in anymore, and sign up another account yurself

if you cant sign up another itll be IP ban

Actually, if I use a proxy, I can easily get passed the IP ban. I think this computer is dynamic, but my computer at home is static.

I wouldn't feel too bad about being banned from a forum about cheats for telling everyone there that they're a bunch of pathetic losers.

I don't feel bad at all. I, in fact, was waiting for him to ban me.

I made sure they know I'll be back, but my goal is to make it so that they won't.

Give it time. They'll be expecting something. Give it a few days and their little minds will forget all about it then attack. They're not smart enough to figure out strategy.

Why the fuck am I going to leave them alone? They're promoting something called cheating. Maybe you've heard of it. It's generally a bad thing and is frowned upon.

Yeah, but this time, it really does HELP the community, or at least I'll try to actually help the community. I actually have a real side to stand up for, so I'm doing so. I can annoy morons like them very easily, so obviously it's my first choice for attack.

I'm consistantly annoying. My main goal is to get as many people on my side as possible...which is going to be kind of hard since I'm pissing them off ^_^.

I'm bored, and I have a lot of free time. I work 9 hours a day doing practically nothing. It's boring here. I have nothing better to do.

If they were that anti-cheat they wouldn't be supporting fucktards like them by posting on there boards like they would on these. They would spam them with flame threads like j is doing

Well, EAX is turning into a hacking forum, so most people come for that. Plus, resipate is actually pretty cool. He's not like all the morons. My main target now is to attack ARMYboi69 and Cyberpunk. Both are idiots, and flame like they are as well.

Sorry, don't seem like the smartest things to say on the main renegade forum and on the most public category. Oh and just so you know, you can be anti-cheat and still be cool with people that cheat. By the way, you missed out an apostrophe on "were". It looks like you're saying something like "we were not morons, but we now are." (cmf)
