You that francious (sory, don't know how to spell it) should get togehter and make a RA2 mod. I think there are other people who are doin the same but for a simple model like the patriot missle def. that'spretty good. Are u the same guy who made the pillbox? That was awesome too.

We're already making an RA2 mod. We are 3 for the moments. It would be good to have a scripiter and a map maker and a very very good skinner
