Well, I, Personally would light up the EA signal.

Either they'll fix WOL or I'll light up the other light and get Batman on their ass.

Let's face it- EA can't run this server 4 ever. U ever read the MOTD when u log into the advanced game listings? how long does as long as needed really mean to a corperate company? personally, i think 5 years at least... but hey... these r the same people that cancelled Renegade 2

Can't say that I would really care. I'll just have to play, UT2004, and Halo, in my free time instead of Renegade.

Renegade isn't the only game I play. Also, EA Games probably won't take down WOL for a long time, you guys always start these threads when WOL goes down.

Stop it. :rolleyes:
