I would like to inform you there are trojans attached to files going around.

To give you a little more info, here is the details.

Domain: 35mb.com  
Name: drkdestro

\*NOTICE: All files have troajns/viruses.

There are some safe files on 35mb.com, but all of drkdestros have viruses. He has been know to be on eax and gx.

Heres a picture, <http://www.n00bstories.com/image.view.php?id=1267921503>
