You'll need to make them yourself if you want them to work correctly.

Take some time and attempt to learn something.

There was no application that modifies the mXX.mix maps to work in multiplayer. You could edit the INI's but they're not going to work correctly.

I've played on M05.mix once on a big server, it was crazy. 40 people shooting in the maze in

Raveshaw's garden...

Put it up for download for us when you finish, I'd like to check these out since everyone else's versions sucked and were buggy.

0.o

could you please send me the maps you have done so far to webmaster@all-out.co.uk

i will setup a 4th All Out server with these maps and make you admin on it if they work!
