No deal. My avatars/sigs don't degrade half the human population into sex objects with no meaning other than how much they spend to make themselves look perfect.

I agree with the second statement.

ogling and rampant reenforcement of of it via "hoots and hollers" (in whatever form they can be expressed on the internet) isn't what you would call mature.

Commenting is fine, though creating a topic announcing what you think of someone you'll never know is borderline itself.

If, however if you aren't guilty of that, then obviously the post was not intended for you.
