Add a border and scanlines. Theyre the standard. I don't think I've ever seen a photo shop job that didnt have scanlines lol.

Like this \/

lol

Something I use in a different forum, lol. Made it earlier this year.

Yes, it has a border that is black, you can't see it in these forums.

Are all 3 of you looking for an honost opinion that won't lie to you??

Im sorry and ya i know your a beginers but LOL Ice dog, yours is cool but extreamly simple and very tutorialish. Almor errrr its okay for a beginer but ya just do lots of tutorials and you'll see the amazing things that can be done in photoshop. DJM i can't see yours there angle fire.

Here is an example of the crazy shit that can be done 100% photoshop and nothing else from scratch.

*yes my name is Zachary Bragg, but i go by Zach *

What is with all the crazy loopy DNA plasma electrical bolts... That's not what you need for a signature. You need... Something like these! lol

Ya... lol... That's what I call awesome Siggery... I wish I could still use my Mad crazy blinging off da hook one but Blazer made me get rid of it many moons ago...

Oh trust me, I know how powerful Photoshop is. And yes, that was by a tutorial a long time ago. I've gotten better.

Check out my desktop.

I didn't make the wallpaper, but I'm sure it's done in Photoshop.

I didn't say it meant how much I knew, I meant to show you that I have seen how 1337 Photoshop is.
