I need to know how to make weapons drop. I think it has something to do with scripts.dll, if you have the file, with only that modification on it, i'd like to have it. If i have no clue what i'm talking about, Please correct me. Thanks

dan

You have to download the c-130 drop editor. I haven't used it for ages, so I don't remember how to use it, but I'm sure somebody here can help you.
