I`m sure someone has a loong ass list of ppl who are known n00bs. Matters of fact not just personal opinion. Anyhooter Crimson or Blazer what do you think of a Sticky n00b thread ?

(I'd like to del this thread so I can move it to n00bforums but the option isn't there for some reason)

Shouldn't something like that be on n00bstories and not here?

He said known n00bs. Not n00bs by made-up n00b stories or people's opinions of their character.

I don't bother to make a list of them, just do things like push them into tiberium and constantly annoy them/get them killed if they're on my team. If they're the enemy then I'll just kill them or better yet let them keep screwing their team up .

The people here are right. We have the main site and the files on it for the n00bstory side of things, go and post there.

Just delete the /renforums part of the URL and then click on "n00bfiles" to post!
