If you think you can manage to try something over and over and over and over again until you get it right, and you have a steady hand, try this game:

<http://www.kmb.com.hk/chi/wonder/finaleasy0110.swf>

The idea is to move the dude that hangs from the mouse pointer to the finish without touching walls or obstacles. Good luck. You'll need it.

(The window takes a moment to load, be patient)

Translated by my brain 1.0

(Notice that i'm the only one that is bored to do this translation, slap me kthx)

Found this:

The game has two levels of difficulty: easy and hard.

Try your best to complete 3 stages as fast as you can in order to get the bus to move. You need to start over again at the same stage if you do not make the correct selection.
