You must extract:

Anyone else got thsi Problem?

I know from one other person, also have talked to Jonwill, but no idea why it don't istall the right version.

I had the same problem

1.) Download always.dbb and put this file into your Renegade/data folder.

[http://fanmaps.net/index.php?ind=downloads&op=download\\_file&ide=33&file=always.dbb](http://fanmaps.net/index.php?ind=downloads&op=download_file&ide=33&file=always.dbb)

2.) Reinstall CP1: <http://www.renegadeforums.com/viewtopic.php?t=12287>

This should fix it

We have modified the installer to display more detailed debug infos, hopefully this will shed in some light why it is failing on some systems..

Redo your installation and see if it properly replaces always.dbs now..
