Just use Wordpad. It's already on your computer, it gets the job done, and it's LEGAL.

He's just ranting about how doesn't like vehicles, but I guess he inadvertently is admitting to getting owned by vehicles as infantry, but yet still hates them.

rage\_in\_the\_cageOh, I don't like vehicles because their cheap as hell. Not to mention they are too vulnerable to be of any use to me. If your driving by a cliff and a guy with a pic or rail gun ambushes you at the top of the cliff, then what is going to happen? You can't drive up there, and rockets and bullets don't home in naturally. I will admit i use vehicles when i'm base defender or when i'm really pissed for dieing as chain gun officer on canyon. I use the hummvee/buggy to drive around in, but not really fight to much. The everyone using APCs thing is just gay. Heavy armor and a machince gun- It doesn't matter what infantry unit you are; No matter how much better you may be than the driver, you'll still die instantly even if hit slightly. Thats why i don't like vehicles. Besides, Those noobs in vehicles need someone to take out the snipers killing their Mobile artillerys and whatnot.

I suppose you're one of those bitches who use officers the entire game, which is entirely useless since you can't help your team AT ALL, only point whore and get like 200 points the entire game. You may also be one of those players that use n00bjets to whore on vehicles and flying vehicles.

I dislike Renegade players like you.
