Just wondering if you are going to do any more work on the server-side maps?

For someone reason ssaow doesn't detect any building controllers in the m01 you modified, but it did detect the original m01 map from westwood and me & titan got ctf to work on that. Sadly there are no pts on the regular WW map

I can work on some if you like.

I mostly wanted to help Fanmaps though.

I don't think Ty is going to work on anything with Renegade anymore...at least not for a while. I am not certain, so don't believe me 100%.

I could take a shot at it later. Just need to go buy another copy of Renegade as my CD got destroyed.

Never rig your discs with C4.

If it could possibly fit in there you shouldn't be able to reproduce.

Anyway, I'll work on some more later.

I didn't mean "UKTV"

I meant, UK Television in general

Channel 4 to be exact
