I swear, if someone came up to my car and did that the street would be red for miles. That's after I've ran over him several time of course.

What an asshole. A plus of that situation is, however, that if you ran the guy over, it could be considered self-defense

And that's why I'm buying a pistol as soon as I can and keeping it with me at all times.

The cops would take too long to get there. Shoot the asshole to kill.

That guy needs to be strung up by his balls and beaten like a pinata.
Assholes like him are the reason "the bad part of town" exsists.

That video would've been amusing if the driver got out of the car with a shotgun and blew the
reject's head off...

Yeah, I would have taken a gun and capped his ass, and be like "What's up now, n****? You think
you a tough n**** now, huh?", just to use his words against him...not because I'd actually use
them.
