glyde51Sorry RenArdin, the texture looks like it needs a little more work.
Why are you sorry? It's not like a texture looking horrible is anything new coming from Reborn.

...and you complain when people bring down your work?

Its people like you that make people like Jeff Woods feel so god damn bad, yet you have the nerve to say your in the same shoes as him?

Then again... what else can we expect from the leading asshole of the community...

There's a difference between Jeff Woods and Reborn. Jeff Woods does excellent work and spends a lot of his time working on SWG, or at least he was working on it.

Retardin does not. He rushes everything and makes it look like this sack of crap he posted, and expects people to think it looks good? Furthermore, your Pendumbass self comes in and tries to

defend him with that half-baked reply... See this is what I don't get. You see several other people saying it looks like shit, or they don't like it; what have you... But you single me out for it and complain that I don't like it.

You're an idiot. It looks like shit to most people I've shown it to. Fire Retardin and get a real texture artist... Along that line, they need to fire you and hire someone who knows how to do more than simply edit an existing sound in Windows Sound Recorder and call it their work.

It takes a strong person to start a arguement.

It takes a stronger person to withdraw that agruement.

Titan1x77Why not make 3 skins?

One with snow, another with mud, and leave that 3rd one....just export all 3 models with it's respective skin.

Hehe We are doing soemthing like over the the Star wars mod. I think it's a great idea. We are doing the same with buildings.

Why not just make a texture map instead, because you're going to have a lot of trouble trying to remove the skin of something that isn't tangible -- which has no skin.

I find it funny that Titan "works" for Reborn and doesn't even know what the fuck they're doing...

It's even funnier that he has to come into a public forum and tell them what he thinks, as if they aren't listening anywhere else.

What a tight knit group, surely capable of producing great work! ahaha, seriously though...

I know exactly what they are doing...the thought of making several "texture maps" occured here...and since Renardin visits here quite often why not just post here.

Seriously though...Stop thinking you know it all...Cause you dont

Sure you do. Everywhere you post about Reborn, you have no clue about what's going on with it or why things are the "way they are."

Dumbass, it goes, "If you don't have anything nice to say, don't say anything at all." The thing is I don't like it, so I'm going to tell them what I don't like about it. It's not being mean at all. If they actually take your criticism and try to work from it, it could better the product. That's why it's always good to speak up. You must not be that far enough in grade school to understand that lying is wrong.

j_ball, you moron.

Don't you know it is wrong to make statements that people will be offended by? You're never suppose to critisize, you're supposed to sit down, shut up, and take whats given to you regardless of how bad it may seem to you. Critisizing only makes people offended, and that is just not right!
:rolleyes:

yeesh!

You and SFE really like to take things out of context, don't you? If you hadn't noticed, warranto's post was sarcastic, meaning that the comment you quoted was also sarcastic.
