does anyone have an IRC script like this:

wildivan4: wtf

Host: (Bi0Guard@IRC): wildivan4 got ownt!

any one got any thing like that??!?!?!?

```
on *:text:*:#CHANNEL: {
  if ($nick == BOT-NAME) && ($2 == wtf) { /msg $chan !msg $strip($1) just got ownt! }
}
```

that should work.
