Before you even start, NO I AM NOT MAKING THIS MOD, so dont bother.

Beast wars was a saturday morning cartoon when i was about 10. I recently downloaded all of the episodes and its still quite entertaining. It would make a bitching game.

Here is a clip from the show:
http://www.dr-oblivion.com/beastwars.00.avi

You can see good examples of people, tranformation probably isnt likely.
If one were to make this mod, i would probably model the Maximal and Predicon base.

EDIT: For you 56k users: here is a pic:

I thought the same exact thing, but when i actually watched an episode or two, i couldnt stop. I think it is more of a thing you enjoy with intelect than with youth.

It's not even worth starting a new mod for Renegade from scratch now.

Source would be a good palce to make this. I'm all for it. Beast wars was my favriote cartoon when I as like ten. I had almost every toy.

I always wanted a good beastwars game. There was a poor playstation game and a pretty weak tekken style fighter for N64. Other than that There wasn't ever anything good by game wise.

Depth Charge was my favriote

Easy. The game has already a Chameleon Battle Bot in it.

Lol, that wouldn't really be a "mod", more like 1 uber scripted map with new vehicle models.

Edit: This reminds me of that arena map in the SS mod, that was fun as hell

1998 is between 1996 and 1999. Therefore, the date I supplied was correct.

...My point is, that show sucked, even when I was ten in 1998. Or even when I was eight in 1996.
(You can figure out my age by that information, I don't need to tell you what it is.)

Not to mention you don't have to come and say the show sucked if you didn't like it. Do you like
making a person feel bad about there good childhood memories or what? That is sad.

Your point is not a fact so who gives a shit what you say anyways. Don't come in here and act like your oppinion means everything , Because it doesn't.

Blasphemy!!!

Beast Wars was my favorite show back then, I even recorded all the episodes. Those copies have probably degraded too much to watch though...

However its spin off, Beast Machines, sucked.

Your not kidding , That show was the worst ever. I saw a few episodes and just stoped watching it.

I wish they sold all of the beast wars episodes on DVD. That would be on my christmas list.

Breed > Halo 2??? I saw a review on that and the AI is stupider than the AI in Renegade, you don't see Renegade charecters running into the ocean and eventually off the map, or running off cliffs.

It would happen propably in Renegade too if they didn't put invisible walls there-

That's why they made pathfinding...without that, characters would look like they were humping the walls when a shot was fired.
