Edit by YSL:...

Your skin isnt too bad, the orange colour suits the character imo, but the lettering seems a little out of place. Try to make it blend in with the skin a little more.

All in all, a very nice first attempt.

Not bad, I agree that the rtext needs to blend more. I think its terrific for a first attmept, keep it up!

Nice, but make the orange more around his torso more solid, and maybe put "GDE" in the front.

P.S. AHHHAahahahhahaHAHahaH too many posts edited by YSL
