It is possible that the script failed and he didn't disappear like he's supposed to, but more than likely the guy just spawned and killed him.

The guy blatantly just noclipped over to him and shot him. There's nothing new about that.

No, Gman really appears in that spot, talking to another rebel guy. There is no way to get up without noclipping though.

Its the second little beach house you come to along the beach. Its the one with a broken pier leading to it. Look through the binoculars inside it to see teh Gman talking with Cabbage.
