Ok, i have a FDS registered any everything, i input all the needed information to BR and NR. I tried them both. BUT when i click run FDS all NR and BR does is client my game and it dosent show some of the information. The !rules dont work, i cant say anything inside BR or NR the moderators dont work, could some please help me!!!!

First of all you need to pick one BR or NR, if you don't know what ya doin get BR, here is a handy tutorial that helped me out twhen I was starting. Written by zunnie from Fanmaps.<http://fanmaps.net/zunnie/brenbot/BRenBotTutorial.htm>
