I get the same error. I get it all the time, even after i reinstaled the game like 20 times

Refer to here for updated help m8

WOL is currently having some issues. Its practically OFFLINE until someone at EA restarts the pcs or something.

Use gamespy or something until WOL is fixed.

"or xwis"

Oh yes, thats very usefull information.

Not everybody here knows where to get it, how it works etc.

Would be actually usefull if you posted links to it and a basic how to use it.

<http://www.xwis.net>

click set to change 2 xwis servers, reset to change back 2 wol servers....not exactly rocket science

i take ur point tho, i posted it when i was quickly flickin thru forums and didnt bother 2 explain it
