Sorry. But don't forget there's been a bot in the chats advertising it for months and months.

Anyway, most of the actual links on that site have been surreptitiously made dead, thanks to Lurker and I

taslayerserver owner access plz

Damn dude... you should be glad that you even have mere access to the n00bstories network, let alone any Renegade servers...

I can only imagine what kind of "server owner" you actually are, given these posts I dug up from you at a popular cheating forum...

Obviously the method posted doesn't work, even though it is censored.

Of course, this could just be someone else with the same exact name as you... but that's pretty questionable considering the striking similarities in the posting intellect both entities seem to display.

That's not a good thing, dumbass. Don't act like it's ONLY EAX. They're not innocent. They're known for their cheats.
