The serial number from renegade is not compatible with the

serial number of the fds. Get a free serial number at

<http://renegadeserver.westwood.com/RenegadeFdsReg/index.jsp>

You don't need a serial number if u wan't to run your server on WOL.

It is only needed if u want to host on WOL.

If u run a server on WOL, u will have to edit the server.ini file instead of gamespy.ini .
