Your signature is TOO LARGE!

Your sig is about 1.9 MB! That is about 1.850 megs too large.

Please change it.

As I read from Blazer's Semi FAQ's/ Rules post, he said you can have images as long as they don't stretch out the forum which I have. He never said nothing about the size of the images. But I privated messaged him about it already. If he says to change it I'll happily do so.

I know what you mean NHJ BV. But do I really have to suffer and not have a good sig cause you have 56K?

Yes you should. Besides, imo the movement is annoying as well. Not everyone in the world has cable, people need to realize this.

Should I have to suffer just because you have cable?

HAHAHAHAHAHA.... First thing i thought was Yeah, but saying it in a funny sort of way (from a Comedian look of things).

But anyway, I admit is is large. But the point is, you can't please everyone. Cause everybody wants their way. Well some people can't get their way. Thats the way life goes. So either way, one of us is going to get there way. I know its not going to be me cause Blazer will say I will have to change my sig. So might as well have some fun with it before I become disappointed.

It occurs to me that you could be made to suffer becuse, still, the majority of people do have 56K. Not me, not Ack, not you. But others.

Hmmmmmm.... really. I always thought the majority of the people that play online games on here has BroadBand. Seriously, everytime I see a poll of "What type of connection you have" people race to the post to tell what connection they have. And majority online gamers have atleast a ADSL/Cable/T1 line etc. connection. I know there are some people are out there that has 56K. I know that there are some people that live in areas where they online can get 56K cause BroadBand is not available. Just saying. You can't please everybody. Thats how life goes.

And I know I'm not really suffering. Its just one of those expressions you used from time to time.

HA AH AH! I just was playing Renegade and it crashed, and it did something to the frame limiter in Windows so like the littl | cursor is blinking like 10 times a second and John Shaft's videos are going like 5 X the speed! It's a blur of kicks and throws. It looks hilarious.

Word of advice. If you think that us DSL and Cable people should limit what we do, just for 56kers, you obviously think too highly of yourselves.

Alright. You 56ker's win. Blazer said I have to change my sig. So there.

But I can tell you one thing. Blazer loved my Sig.

EDIT: And for you 56kers. I know my sig took tons of load time and I apologize for that. But see I liked that sig. Cause everybody in there sig has something that makes them them and represent them in some way. ACK has his plane with his catch phrase. Ultron10 has his name on his. jpeg has a very cool one. See I wanted one that represented me. That's why I picked the Matix gif. Cause it represented me thru martial arts. And it went with my quote. But see that's ok. I guess I have to find me another animated gif that represented me in some way. I have to make sure it's 250K in size like Blazer said.

It was indeed a very cool sig, but sadly although the physical dimensions of it were fine, due to the number of frames it was just too much data for folks on less than speedy connections to download in a reasonable amount of time. Ah well soon Matrix Reloaded will be out and maybe there will be something even more cooler from that to have as a sig

Hey Shaft, I didn't get to see your sig before but I'm sure it was cool if it was anything like what you have now. I think Sir Phoenixx has a little too much free time, he's in the lead with 80 posts in two days and he was questioning Ack about his sig too. Anyway, good to see ya here

Yeah I have all the Street Fighter 2v DVD collection. But the one in my sig is from Street Fighter 2: The Animated Movie which I also have on DVD. I also have Street Fighter Alpha on DVD also. I'm a big Street Fighter fan.

EDIT: Hey Krazyfoxxx, just PMed you dawg.
