HI,

i have a problem.

in WOL no one can use for example my nick to logon into my server and be a game mod.

in gsa anybody can use my nick and play as a mod !!!

is there a safety mechanism to repair it !!!

Sorry for my bad english ^^

You can message the bot on IRC and register your nickname (/msg yourbotnick register youringamenick password), this way you have to !auth yourself in IRC or PM the bot with auth yournick password every time you decide to play on the server. If you do not auth in 60 seconds after joining, you will be kicked. Make every other mod on your server register his/her nick aswell and you'll be safe.
