I'm starting a new mod called Viron Wars. I'm basically changing the look of alot of the game models. I'm going to change: weapon models, character models, and projectiles. I'll do some vehicles and maps too. If anyone can help with any of this, just gimme a shout: boomstick420@gmail.com. Tell me what you wanna help with and I'll give you some ideas. Anyone who helps WILL get FULL CREDIT in the mod. I need help for: skins, maps, vehicles. The mod theme is futuristic, Aliens(NOD) Vs. Humans(GDI) and both sides make use of robots and vehicles. If anyone is interested in helping or just wants occasional updates, just send me an email.

You may want to learn how to create new weapons first...

The official renegade mod tools comes with two characters, and the sniper rifle, you can use them to scale your weapons to. (...HowTo\Characters and ...HowTo\Weapons)
