i can play on a server for about 10-15 min (with rengaurd working) then i get kicked out and the rengaurd screen says that i was kicked out for cheating. this is the file it tells me i was kicked for data\Always2.dat. i have reinstalled rengaurd but it did the same thing. i dont cheat (wouldnt know how) and i havent changed anything to do with renegade or rengaurd for about a month. i have no idea what i'm getting kicked for. any idea whats up i really dont want to have to reinstall rengaurd if i dont have to.

thanks

Have one of your friends send you their always2.dat.

This should resolve your problem.
