Put it this way, there are tonnes of large capacity servers on renegade and most of them are usually empty, unless you havea Clan I think this is a bad idea.

"n00bless" is such a ripoff of non00bs.net

Way to be creative :rolleyes:

There are tons of totally empty servers out there...

Even if you have the money to run servers, it will most likely be a waste of time because not that many servers are used and people have preferences as to which servers they like to use.

Well as far as it being a waste of many...traffic has actually been fairly good through teh server...and tehre isnt any money wrapped up in it what so ever...its just a place for people to go and have a good time and play renegade...sure theres tons of empty servers...alot of them have made a name for them selves by allowing cheaters and for having assholes for moerators...that chases people out.

Good luck with your server. Most important thing is to build a community, but also always have a moderator or two in your server.

The traffic on the server is really picking up, hopefully once people start coming back to it daily it will get going.

Best of luck to you with your server. Keep a fresh and clean gaming atmosphere alive in it, and I'm sure you'll entertain quite a few people.
