Despite the intended humor of this post, I assume it's going to incite some... interesting... discussions. Moved to the hot issues forum.

Sweet, posts that serve no logical value. Those threads were moved to a more suitable location on the n00bstories forums. But since his threads only consisted of a single animation, and that animation is already in this thread, then it shouldn't be a problem...

gbullAsk me if I care about you.

The fact that we don't care about each other is not the issue, I was merely stating a fact, as opposed to actually caring wether or not Tiara or yourself support or give a fuck about Reborn, which is to be honest I don't care wether you do or not.

Of course you'd type that, I'd expect no less, same for many people in the Renegade community, but no matter what we do or what we try to do the opinion of most of the Renegade community will never change, so what's the point in even trying to argue the point anymore, think however you want to think, nothing can possibly change that.

I think im going to make a graphic saying "This thread has been Hijacked by Assholes, Now Im taking it back" and then spam it for every reborn bash i see within the thread. perhaps that would annoy you guys so much you would quit this fucking battle of whos better at something noone cares about.
