Show me where to get a dedicated root server (not virtual) for this lousy amount of money.....the smallest server I know is a root server which can handle 18 Slots in Renegade and it costs 25 € per month...

I want a 127 Slot AOW server with the 10 Westwood maps, SS-CP4.66 & BrenBot 8.21 plz!!!

EDIT: The offer from aohost sounds not bad...1 Pound per Slot...
