It's a real shame that the car never took off, I last saw one on ebay selling for £16000. I'd have paid it if I had the money

Sucks to see such a thing happen, Deloreans where truly excellent cars. I also heard there's a gold plated Delorean inside a Swiss vault, wether that's true or not remains to be seen.

Yea the Delorian is indeed one of the best looking cars around to date. In the Roleplay2 map that vehicle is the main source of transportation, so be on the lookout for the map in the next few weeks.

He was 80 when he died... he was trying to get to 88 but his flux capacitor gave out.

(Yeah, stole that from fark.com but it's really funny)
