Whenever I try to join one particular server (Ohnouser), Renegade closes out after twenty seconds, and I'm left with just the Renguard window. Here's the text from the Renguard window:

```
[17] Trying to connect to server #1...Connected  
[17] Server is not responding. Trying next one  
[17] Trying to connect to server #2...Connected  
[17] Secure link established.  
[17] Welcome to RenGuard , lonyze!  
[17] To launch Renegade, please click 'Renegade'.  
[17] You have joined [BR][SSAOW] Ohnouser AOW .

[17] Disconnected from RenGuard network
```

I don't get any message in-game, remember. Renegade just seems to completely disappear. Why could this be happening? By the way, every other server I can enter with no problem.
