First, find a nice mud caked rope. Second, find a pretty sturdy tree branch somewhere near your home. Third, tie the rope tightly around the branch, leaving the rope a few feet within midair. Fourth, bring a chair to stand on and tie the rope to your neck. Fifth, remove the chair and hang for several minutes in midair.

If your ceiling turrets still do not work, just wait longer. It works every time.

put the scripts in your mod folder.

EDIT: and you dont add the guns yourself watch this video:

http://oblivion.darev.co.uk/files/build_tut.exe

Fourth, bring a chair to stand on and tie the rope to your neck. Fifth, remove the chair and hang for several minutes in midair.

If your ceiling turrets still do not work, just wait longer. It works every time.

How about you try that?

RMWHuntery0 i add little gun turrets to that agt, but when i play the game they dont shoot what do i dp ()()()()

Your family must be ashamed of you. Please, do us all a favor and swallow a bottle of asprin. Wash it down with Clorox.

1. to add the guns to the agt simply put the building controller in the roof.
 2. if ur trying to add EXTRA ceiling guns for some reason you need to add m00_base_defense script to them (the preset dnt have them for some reason)
 3. you need to make a folder called scripts and put scripts.dll, scripts2.dll in it. (also bhs.dll if you want tht as well)
