lol So im watching TV when I hear my brother spaz out in the basement(very normal) so I walk downstairs to see whats going down and as I walk down I see him playing a game of CounterStrike: Source. As I walk down I hear "GOD DAMNIT THIS INCOGNITO KID IS A FAG!!!!!" then Im like omg! is it the same one from ApocMedia??? So my brother ([GDE]Ray Kon) is playing on glass and Incognito keeps shooting it out from underneath him. By now im laughing my ass off because I know my brother probably started it (he always starts it). Time and time again my brother attempts to exact his revenge on incognito only to fail and crash through the glass and into the pit below. So my brother stops trying because he realizes he cant win, and Incognito blows him through the glass below yet again with a well-placed grenade. And now my brother says "omg INCOGNITO STOP!!!!!" then Congnito replies "DID". Then Incognito left. My question is: j_ball, was that you, and if it was - ROFLMAO!!!!

Unfortunetely, no. CS:S isn't even installed on my computer because I've been too lazy to, and since the whole "EAX" ordeal, I can't even access my steam account.
