nahh... i think halo kicks butt. and really hard aswell. i read somewhere that halo is the first game that has reach a gaming level beyond anyother game. its like the #1 game in the world.i alos read that most plp in the world with Xbox and halo are in canada. 30.1\% of Xbox in the world are in canada. im not sure about how much with percent of halo is in canada. Hehe. i live in canada but my mom wont let me buy an Xbox. even tho i have like \$500 bucks at home and about like \$200 at the bank. plus i get like \$100 for my BDay. and like \$50 for other celebrations.

Renegade is best when played online I suggest you buy the real version and support WW not to mention MP is SO GOOD! I am noticing that I am still learning strats even today. Also the n00bs that used be are now pretty good. It's much more challenging then it used to be.
